http://datascience.utah.edu/seminar.html

Jan 9 **Christopher Musco** (NYU)
Randomized Functional Analysis

Jan 16 **Alexander Lex** (Utah SoC, SCI)
Literate Visualization: Making Visual Analysis Sessions
Reproducible and Reusable

Jan 23 **Harish Maringanti** (Utah IT & Digital Library Services)
Data Science projects in Marriott Library

Jan 30 **Qingyao Ai** (Utah SoC)
Unbiased Learning to Rank

Feb 6 **Gail Zasowski** (Utah Physics & Astronomy)
Big Data, Big Universe: Data-Driven Discoveries in Astrophysics

Feb 13 @ 3:40 **danah boyd** (MSR and Data & Society)
TBA   (also part of Goldman Sachs DLS)

Feb 20 **Bei Wang** (Utah SoC, SCI)
TopoAct: Exploring the Shape of Activations in Deep Learning

Feb 27 **Taylor Sparks** (Utah Material Sci & Eng)
TBA

Mar 5 **John Horel** (Utah Atmospheric Science)
The Promise and Perils of Big Data in the Cloud :
Examples from the Atmospheric Sciences

Mar 19 **Matt Samore** & **Jeffrey Humphreys** (Utah Epidemiology)
TBA

Mar 26 **Samir Abdelrahman** (Utah Biomedical Informatics)
Computational Solutions for Healthcare Applications

Apr 2 **Sameer Singh** (UC Irvine)
TBA

Apr 9 **Olivia Sheng** (Utah Operations & Info Systems)
A Deep Learning Approach to Industry Classification

Apr 16 **TBA**
